

Bea Miller - Young Blood

(Original key: F# major, capo on 1st fret)

[Intro]: F C Dm Bb

F C
We were making history, breaking rules and breaking free
Dm Bb
Questioning the writing on the wall
F C
Coming from the underground, laughing as we're falling down
Dm Bb
Soaking in the glory of it all

F C Dm Bb
But in dark times when we close our eyes, it's a nightmare, it's a nightmare
F C Dm (Bb)
When the sun don't shine we lose our minds, but I swear, we can get there

F C Dm Bb
We've got young blood, can't destroy us, we make our own luck in this world
F C Dm Bb
We've got young blood, no one chose us, we make our own love in this world

F C
Someday we could run away, see it all before the pictures fade
Dm Bb
And bottle up the feeling in a jar
F C
Pass around to all our friends, we can breathe it in and out again
Dm Bb
Huddled in the backseat of the car

F C Dm Bb
But in dark times when we close our eyes, it's a nightmare, it's a nightmare
F C Dm Bb
When the sun don't shine we lose our minds, but I swear, we can get there

F C Dm Bb
We've got young blood, can't destroy us, we make our own luck in this world
F C Dm Bb
We've got young blood, no one chose us, we make our own love in this world

F C
And the voices will get loud, if you never learn to shut them out
Dm Bb
If you're lost you can be found, if you follow me until you hear the sound
F C
Put 'em up, put 'em up now, if you know we're never backing down
Dm (Bb)
We're never backing down, no

F C Dm Bb
We've got young blood, can't destroy us, we make our own luck in this world
F C Dm Bb
We've got young blood, no one chose us, we make our own love in this world
F C Dm Bb
We've got young blood, can't destroy us, we make our own luck in this world
F C Dm Bb
We've got young blood, no one chose us, we make our own love in this world

(Yeah cause we've got young blood)
