

Song name

Artist

C Am

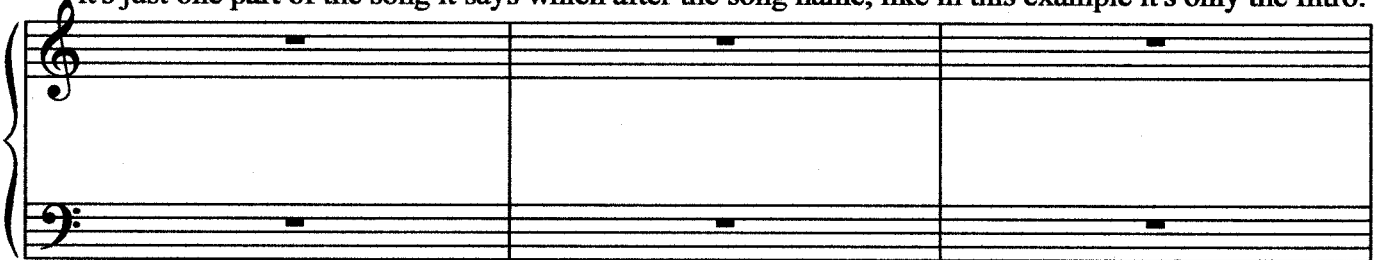

Piano

The first system of music shows a piano introduction. It consists of two staves: a treble clef staff and a bass clef staff. The treble staff has a C chord above the first measure, and an Am chord above the second measure. The bass staff has a C chord below the first measure, and an Am chord below the second measure. The music is in 4/4 time and starts with a piano dynamic.

Okay, explaining how sheet music works here on this paper would be very hard, so I won't even try. But here is an example of SM made in Finale 2006, it most often has chords added above the bars. If it's just one part of the song it says which after the song name, like in this example it's only the Intro.

5

The second system of music shows a piano introduction. It consists of two staves: a treble clef staff and a bass clef staff. The treble staff has a C chord above the first measure, and an Am chord above the second measure. The bass staff has a C chord below the first measure, and an Am chord below the second measure. The music is in 4/4 time and starts with a piano dynamic.

Sometimes I'll add fingering, either on all of the notes or just on the ones where I think it's most needed. The numbers represent the same finger on both hands as follows:

8 1.Thumb 2.Index finger 3.Middle finger 4.Ring finger 5.Little finger

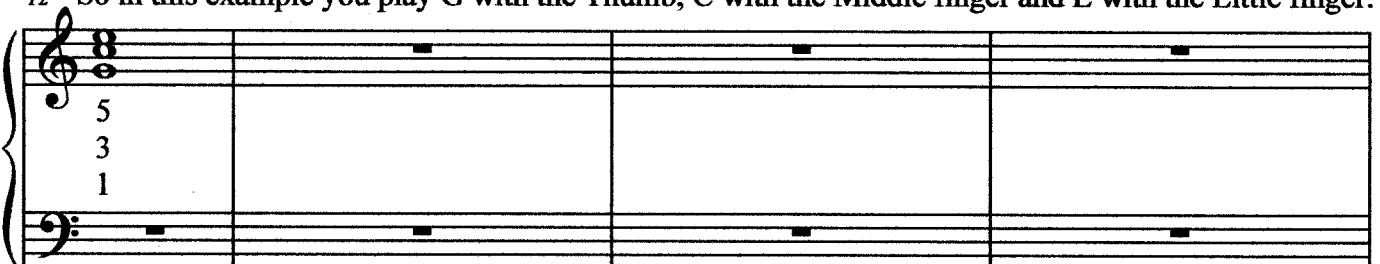

The third system of music shows a piano introduction. It consists of two staves: a treble clef staff and a bass clef staff. The treble staff has a C chord above the first measure, and an Am chord above the second measure. The bass staff has a C chord below the first measure, and an Am chord below the second measure. The music is in 4/4 time and starts with a piano dynamic.

If there are two or more numbers vertically aligned, the one on top is the highest note, and the one at the bottom is the lowest (tip: think higher number higher note, lower number lower note).

The fourth system of music shows a piano introduction. It consists of two staves: a treble clef staff and a bass clef staff. The treble staff has a C chord above the first measure, and an Am chord above the second measure. The bass staff has a C chord below the first measure, and an Am chord below the second measure. The music is in 4/4 time and starts with a piano dynamic.

So in this example you play G with the Thumb, C with the Middle finger and E with the Little finger:
