F C  
We were making history, breaking rules and breaking free

F C  
Coming from the underground, laughing as we're falling down

Soaking in the glory of it all

Pre-Chorus 1 {  
F C Dm Bb  
But in dark times when we close our eyes, it's a nightmare, it's a nightmare  
F C Dm (Bb)  
When the sun don't shine we lose our minds, but I swear, we can get there

Chorus 1 {  
F C Dm Bb  
We've got young blood, can't destroy us, we make our own luck in this world  
F C Dm Bb  
We've got young blood, no one chose us, we make our own love in this world

Verse 2 {  
F C  
Someday we could run away, see it all before the pictures fade

And bottle up the feeling in a jar  
F C  
Pass around to all our friends, we can breathe it in and out again  
Dm Bb  
Huddled in the backseat of the car

Pre-Chorus 2 {  
F C Dm Bb  
But in dark times when we close our eyes, it's a nightmare, it's a nightmare  
F C Dm Bb  
When the sun don't shine we lose our minds, but I swear, we can get there

F C Dm Bb  
We've got young blood, can't destroy us, we make our own luck in this world

Bridge {  
F C  
And the voices will get loud, if you never learn to shut them out  
Dm Bb  
If you're lost you can be found, if you follow me until you hear the sound  
F C  
Put 'em up, put 'em up now, if you know we're never backing down  
Dm (Bb)  
We're never backing down, no
