(Original key: E major, capo on 4<sup>th</sup> fret)

[Intro]: C Em Am F x2

                  C                                  Em  
Decisions as I go, to anywhere I flow  
                  Am  F  
Sometimes I believe, at times I'm rational  
                  C                                  Em  
I can fly high, I can go low  
                  Am  F  
Today I got a million, tomorrow I don't know

                  C                                  Em  
Decisions as I go, to anywhere I flow  
                  Am  F  
Sometimes I believe, at times I'm rational  
                  C                                  Em  
I can fly high, I can go low  
                  Am  F  
Today I got a million, tomorrow I don't know

[Interlude]: C Em Am F x2

                  C                                  Em  
Stop claiming what you own, don't think about the show  
                  Am  F  
We're all playing the same game, laying down alone  
                  C                                  Em  
We're unknown and known, special and a clone  
                  Am  F  
Hate will make you cautious, love will make you glow

                  C                                  Em  
Make me feel the warm, make me feel the cold  
                  Am  F  
It's written in our stories, it's written on the walls  
                  C                                  Em  
This is our call, we rise and we fall  
                  Am  F  
Dancing in the moonlight, don't we have it all

[Interlude]: C Em Am F x3

                  C                                  Em  
Decisions as I go, to anywhere I flow  
                  Am  F  
Sometimes I believe, at times I'm rational  
                  C                                  Em  
I can fly high, I can go low
