

Selena Gomez - The Heart Wants What It Wants

(Original key: Eb major, capo on 3rd fret)

[Intro]: C Am Em G

You got me sipping on something, I can't compare to nothing

I've ever known, I'm hoping, that after this fever I'll survive

I know I'm acting a bit crazy, strung out, a little bit hazy

Hand over heart, I'm praying, that I'm gonna make it out alive

The bed's getting cold and you're not here, the future that we hold is so unclear

But I'm not alive until you call, and I'll bet the odds against it all

Save your advice cause I won't hear, you might be right but I don't care

There's a million reasons why I should give you up, but the heart wants what it wants

The heart wants what it wants

You got me scattered in pieces, shining like stars and screaming

Lighting me up like Venus, but then you disappear and make me wait

And every second's like torture, heroin drip, no more so

Finding a way to let go, baby baby no, I can't escape

The bed's getting cold and you're not here, the future that we hold is so unclear

But I'm not alive until you call, and I'll bet the odds against it all

Save your advice cause I won't hear, you might be right but I don't care

There's a million reasons why I should give you up, but the heart wants what it wants

The heart wants what it wants, the heart wants what it wants

The heart wants what it wants

This is a modern fairytale, no happy endings, no wind in our sails

But I can't imagine a life without breathless moments, breaking me down, down, down, down
